### WATER BLADE - Stainless Steel

Our bespoke Waterfalls deliver a truly stunning, look and feel to your pool or hot tub.

We can create that wow factor for your spa whatever your vision. Our award winning curved waterfall is available with a mirror polished stainless steel finish.

Our unique system integrates coloured LED lighting that bends with the water to create an impressive effect. We include an option to mount sleek led touch buttons into the side of the stainless so that the functions of the waterfall/ lighting and potentially the spa itself are within easy reach of the bather. All electrics are concealed.

- Mirror polished stainless steel finish
- High quality curved stainless steel
- Multi colour LED light injection
- Option for Inbuilt touch buttons to control lighting & spa functions.
- Concealed cables/electrics
- Ideal for Pools, Spas & Yachts

### WATER BLADE - Acrylic

Our Inset Acrylic waterfalls can span up to 2 meters in length. They produce an even blade of water, that bends the light.

These are a popular feature on our super yacht spas.

- Up to 2 meters in length
- LED Light injection
- The water is pressurised so that even if the boat rocks the waterfall remains constant.

Award Winning Product of the year- Silver  
UK Pool & Spa Industry Awards 2016
